

Frame 1000SS Fireplace

ecosmart⁺
Fire

Make a commanding statement with linear flames that captivate attention in living rooms, lobbies, and grand entertaining spaces.

Frame 1000SS Fireplace

Design Features

1. Premium Materials

Constructed from mild steel with zinc-sealed, high-temperature powder-coat, toughened low-iron glass, and Grade 304 stainless steel burners, Frame Series is engineered for lasting performance and sophisticated style.

Space-Conscious Installation

Requires minimal wall cavity preparation, making it perfect for retrofit projects in existing homes where structural modifications must be kept to an absolute minimum.

2. Zero Clearance

Self-contained, zero clearance construction allows your Frame fireplace to be installed into wood or metal studs, providing installation freedom and flexibility for builders, architects, interior designers, landscapers and homeowners.

Single Room Application

Single Sided fireplaces feature one open side - view the flame from the front.

Complete Design Freedom

Place in virtually any room with complete customisation of finishing material. Whether integrating into marble, timber, concrete, or custom millwork, Frame Series adapts beautifully to your aesthetic vision and architectural requirements.

3. No Flue, No Chimney, No Vent

Powered by clean-burning e-NRG bioethanol, these fireplaces produce no smoke, soot, or ash. Enjoy a warm, inviting flame that's as easy to light as a candle and safe for indoor air quality in any room.

Significant Savings

With no flue requirement for gas lines, electricity, or venting, installation costs are dramatically reduced. Enjoy a streamlined process that eliminates multiple trades and complex approvals while maintaining premium quality and performance.

4. Glass Fire Screen

The toughened glass fire screen stabilises the flame in windy conditions. The Integrated windscreen sits flush behind the frame.

Forefront of Fireplace Technology

Backed by 20+ years of research and development, and third-party certification, each model in the Frame series features world-class safety and fuel ignition technologies.

Global Compliance

These models comply with existing standards in the USA, Europe, UK and Australia. O-TL listed to UL1370, EN 16647 BSI Certified and ACCC Safety Mandate compliant.

Frame 1000SS Fireplace

Accessories

Included

Jerry Can with Safety Spout and e-NRG* bottle adaptor

Jerry Can allows safe storing/decanting of e-NRG ethanol. The e-NRG adaptor connects the Safety Spout to an e-NRG fuel bottle.

Lighting Rod & Lighter

The Lighting Rod is designed to safely adjust the slider position on the burner. It is also used for the ignition procedure.

XL Baffles

Placed over the internal burner vents, they serve to increase the efficiency of the burner as well as further stabilise the flame.

Glass Fire Screen

Paired with a glass fire screen, to stabilises the flame in windy conditions.

*e-NRG not available in all countries.
